

PROTEAN[®]

radial head plate
by skeletal dynamics

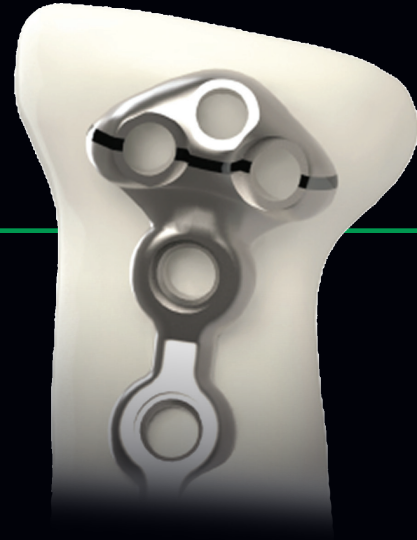

Minimal Footprint
Maximum Fixation

PROTEAN[®]

radial head plate

by skeletal dynamics

+ In-situ plate contouring

+ Various screw options for fixed angle or multi-directional applications

+ Malleable in all 3 planes

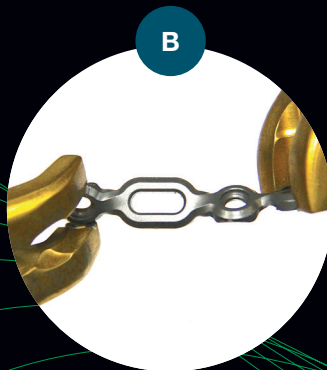

Plate Shaping

Vertical Plane:
Bending up to 30°
between any two nodes.

Horizontal Plane:
bending up to 5°
between any two nodes.

Transverse Plane:
bending up to 45°
between any two nodes.

Cutting to length:
Bend past 120° between
two adjacent nodes.
